

# CRYOGENIC IVF SHIPPING

## A WORLD LEADER IN CRYOGENIC SHIPPING

For over 12 years, Core Cryolab has provided peace of mind to patients and clinics through our unparalleled record for both domestic and international shipments. We understand the paramount importance of your embryo, sperm, oocytes or eggs and our specially trained staff will personally care for your shipment.

## A COMPREHENSIVE SOLUTION

- Personalized shipping solution to fit your needs
- Rental of specially designed cryogenic shipper
- Cryogenic charging of the shipper with LN2
- Includes all shipping costs
- Logistics coordination and monitoring
- All documentation - including customs documents as applicable
- Shipping insurance

## QUALITY YOU CAN COUNT ON

**PROVEN TRACK RECORD:** Over the last decade Core Cryolab has safely shipped thousands of IVF samples.

**CERTIFIED:** Shipping personnel are Saf-T-Pak trained, certified and IATA compliant for the safe transport of Biological Specimens.

**BEST-IN-CLASS EQUIPMENT:** Core Cryolab only uses shippers from Chart MVE, the world leader in cryogenic equipment. These robust units maintain a cryogenic temperature below  $-150^{\circ}\text{C}$  for up to 21 days.

**QUALITY CONTROL:** Shippers receive extensive checks before and after every shipment.

**VALIDATED:** All equipment is validated for performance against manufacturer's specifications prior to use and on a routine basis.

**TEMPERATURE MANAGEMENT:** Vapor shippers are equipped with special data-loggers to monitor temperature during transit.

**SECURITY:** Seals and tags are used to secure all shipments from unwanted tampering.

LEAVE THE DETAILS TO US

Core Cryolab takes the stress out of shipping by coordinating the entire process from initial transfer to final delivery.
